Users can register themselves using the following page.

The image shows a mobile application interface for user registration. At the top, there is a status bar with icons for signal, battery, and time (10:24). Below this is a dark header with the title "User Registration" in white. The main form area has a dark background with white text labels for each input field. The fields are: "Full Name", "User Name", "Password", "Confirm Password", "Mobile Phone Number", and "Email ID". Each label is followed by a light gray rounded rectangular input box. At the bottom of the form are two buttons: "Cancel" and "Register", both with white text on a dark background. Below the buttons, a footer bar contains the text "Powered by Cyber-SWIFT" in white.

The system provides the ease to capture the data in offline mode. Later when network is available data can be synced.

Full data sync feature can be used to update the local database of the app.

Thank you
